The main map illustrates the layout of Tössertobelstrasse, a 30m wide road. It shows the intersection with Gühlstrasse and the Tössertobelbach. The map includes various traffic measures such as signalization (red and blue signs), signalization stands, and markings (white and yellow). It also shows the existing and proposed road surface, including the road, sidewalk, and green space. Buildings and trees are also depicted. The map is oriented with North at the top, indicated by a compass rose.
